CON-8025

Conduit Carrier-147"

Dimensional Specifications on Pages 2-4

Configuration as shown:

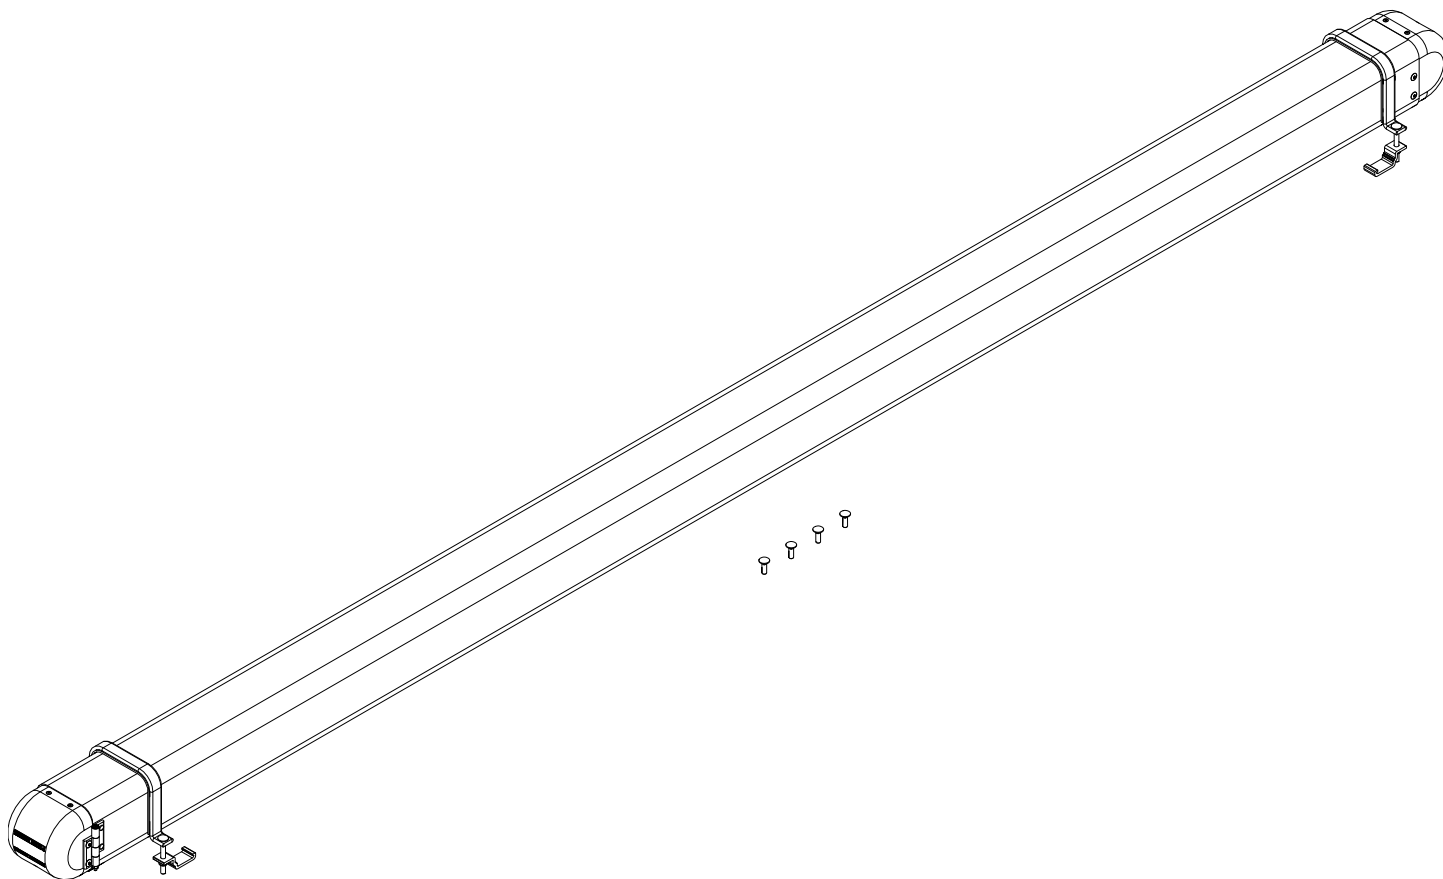

US Gen1, US Gen4, AluRack

Finish: White Powder Coat

Consolidated Hardware Kit: CON-8505

Conduit Carrier Weight (empty): 31.50 lbs

**CONSOLIDATED MOUNTING BRACKET KIT INCLUDED*

**Note: Includes Consolidated Mounting Bracket Kit to install onto Gen1, Gen4, and AluRack models*

CON-8025

Conduit Carrier-147"

Shown mounted onto Gen4 HRR-E-FT43B (Ford Transit Van) for illustrative purposes only

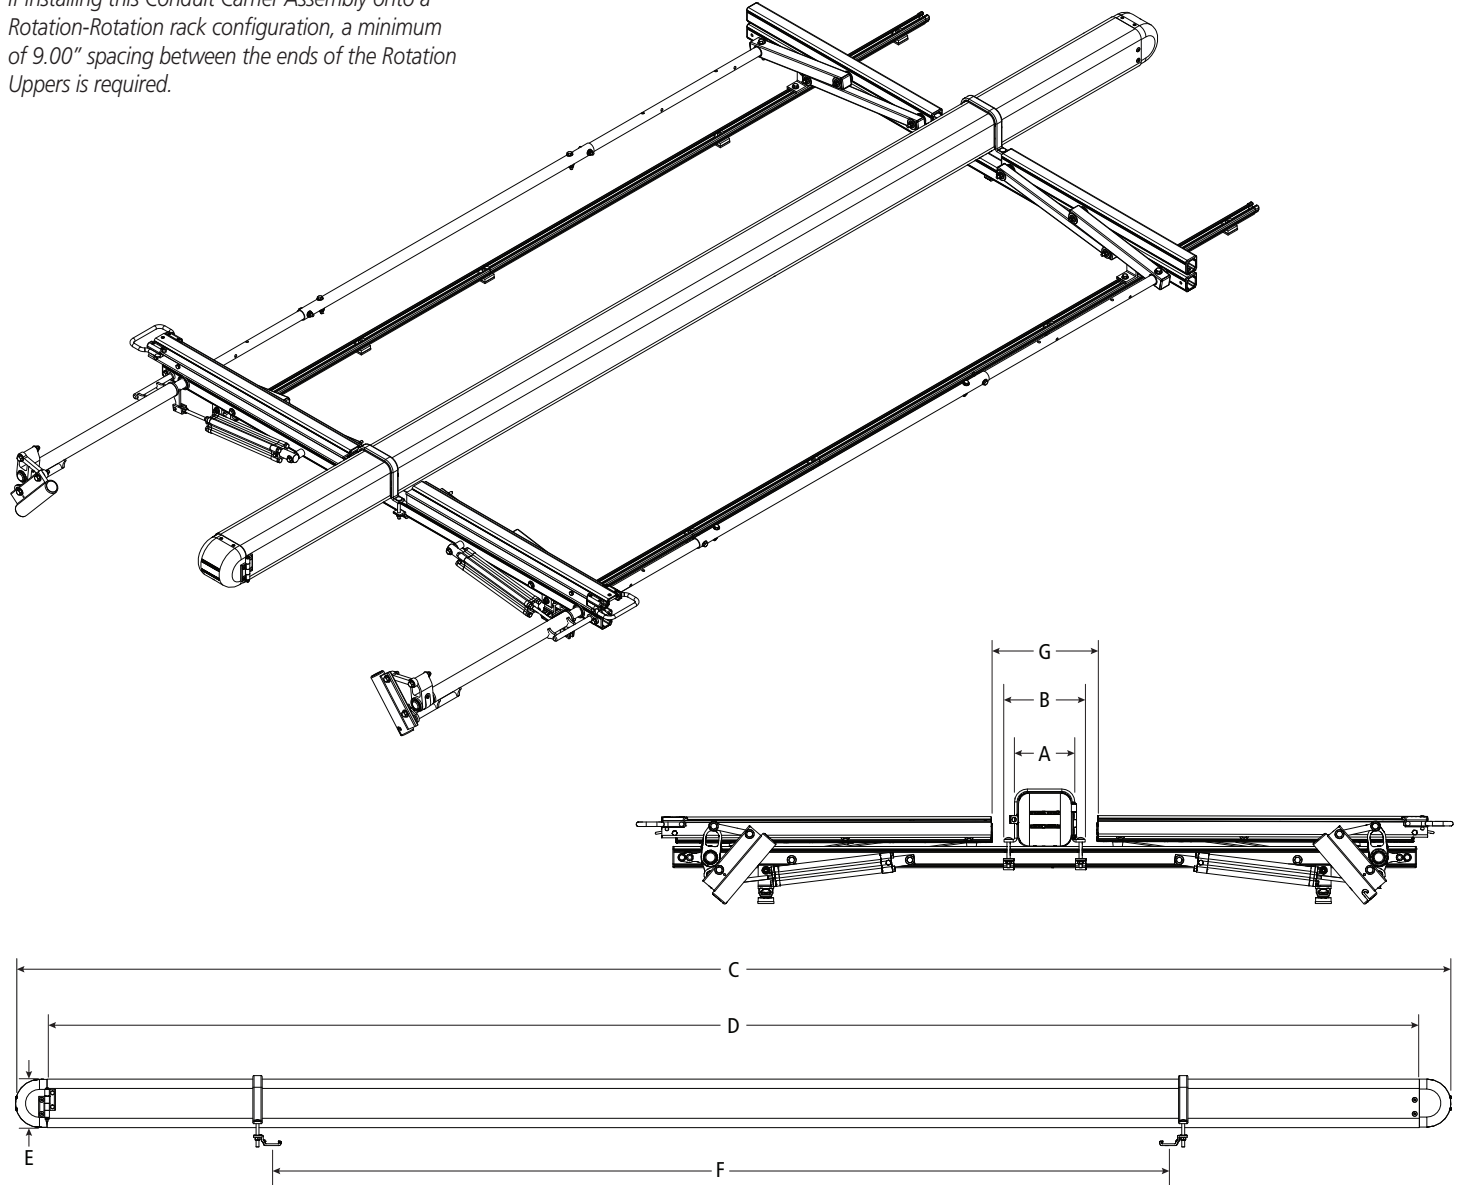

Approximate dimensions as shown:

A: Conduit Carrier Width	5"
B: Conduit Carrier Total Width	8"
C: Conduit Carrier Total Length.....	154"
D: Conduit Carrier Usable Length.....	147"
E: Conduit Carrier Height.....	5"
F: Mounting Bracket Maximum Width	8'
G: Minimum Required Space.....	9"

*Note: Includes Consolidated Mounting Bracket Kit to install onto Gen1, Gen4, and AluRack models

If installing this Conduit Carrier Assembly onto a Rotation-Rotation rack configuration, a minimum of 9.00" spacing between the ends of the Rotation Uppers is required.

*CONSOLIDATED MOUNTING BRACKET KIT INCLUDED

CON-8025

Conduit Carrier-147"

Shown mounted onto Gen1 VRR-326 (GM Van) for illustrative purposes only

Approximate dimensions as shown:

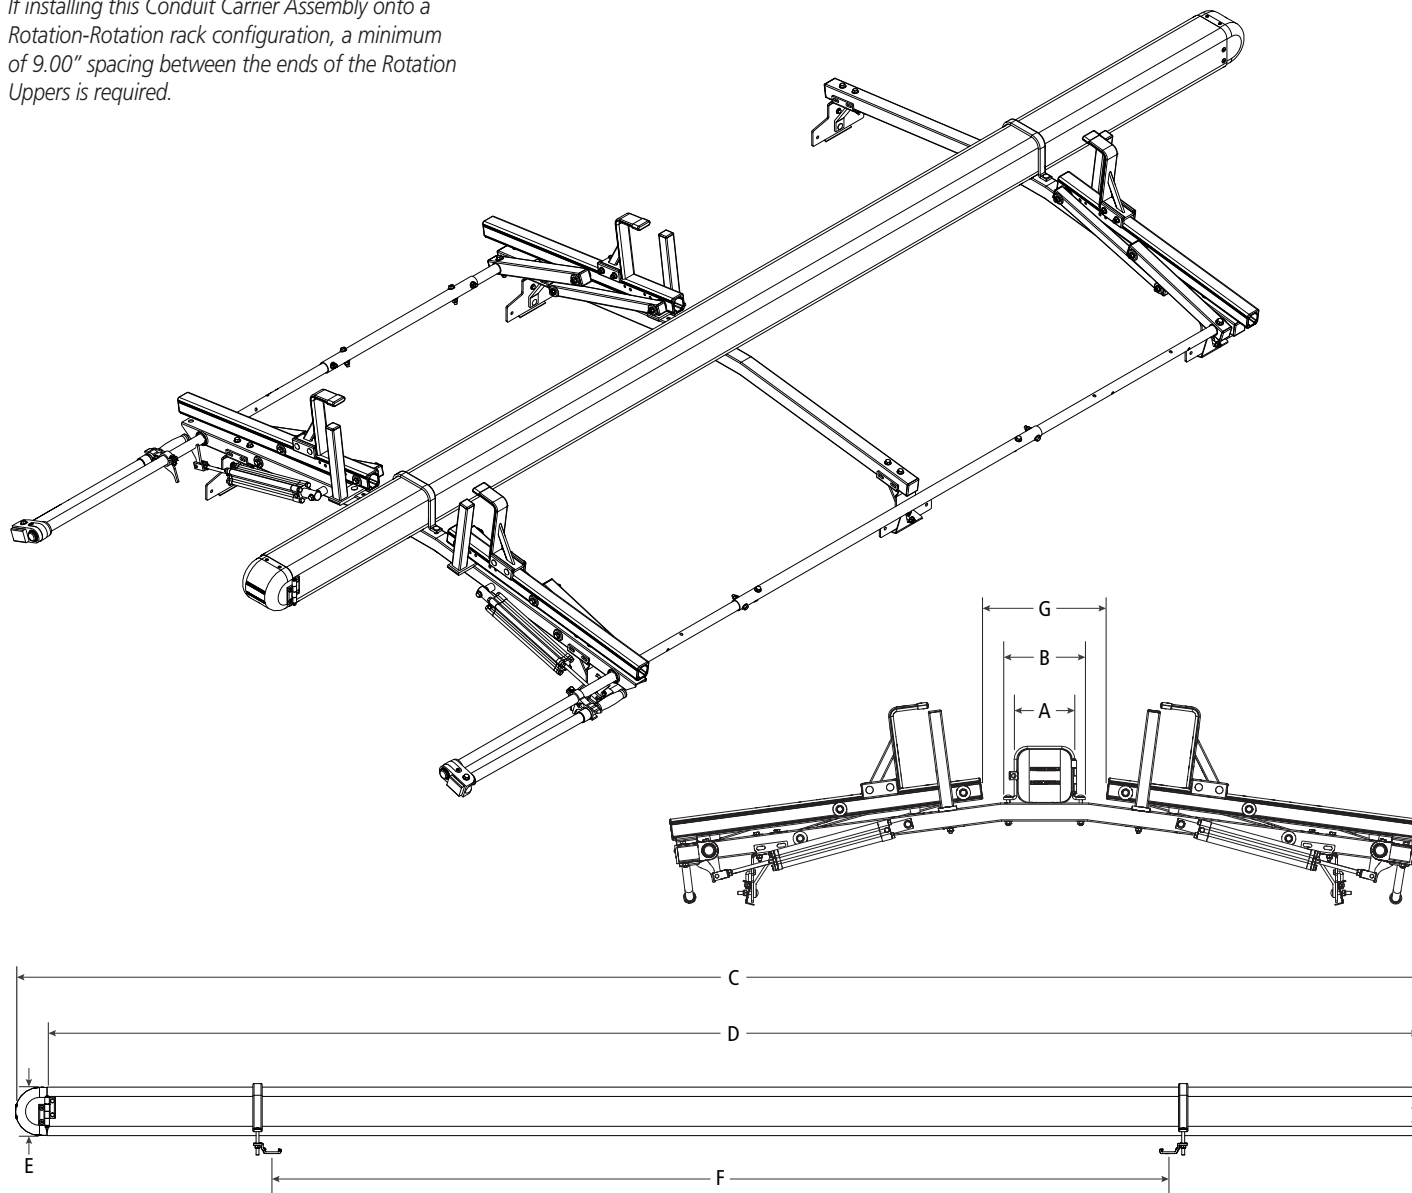

A: Conduit Carrier Width	5"
B: Conduit Carrier Total Width	8"
C: Conduit Carrier Total Length.....	154"
D: Conduit Carrier Usable Length.....	147"
E: Conduit Carrier Height.....	5"
F: Mounting Bracket Maximum Width	8'
G: Minimum Required Space.....	9"

*Note: Includes Consolidated Mounting Bracket Kit to install onto Gen1, Gen4, and AluRack models

If installing this Conduit Carrier Assembly onto a Rotation-Rotation rack configuration, a minimum of 9.00" spacing between the ends of the Rotation Uppers is required.

*CONSOLIDATED MOUNTING BRACKET KIT INCLUDED

CON-8025

Conduit Carrier-147"

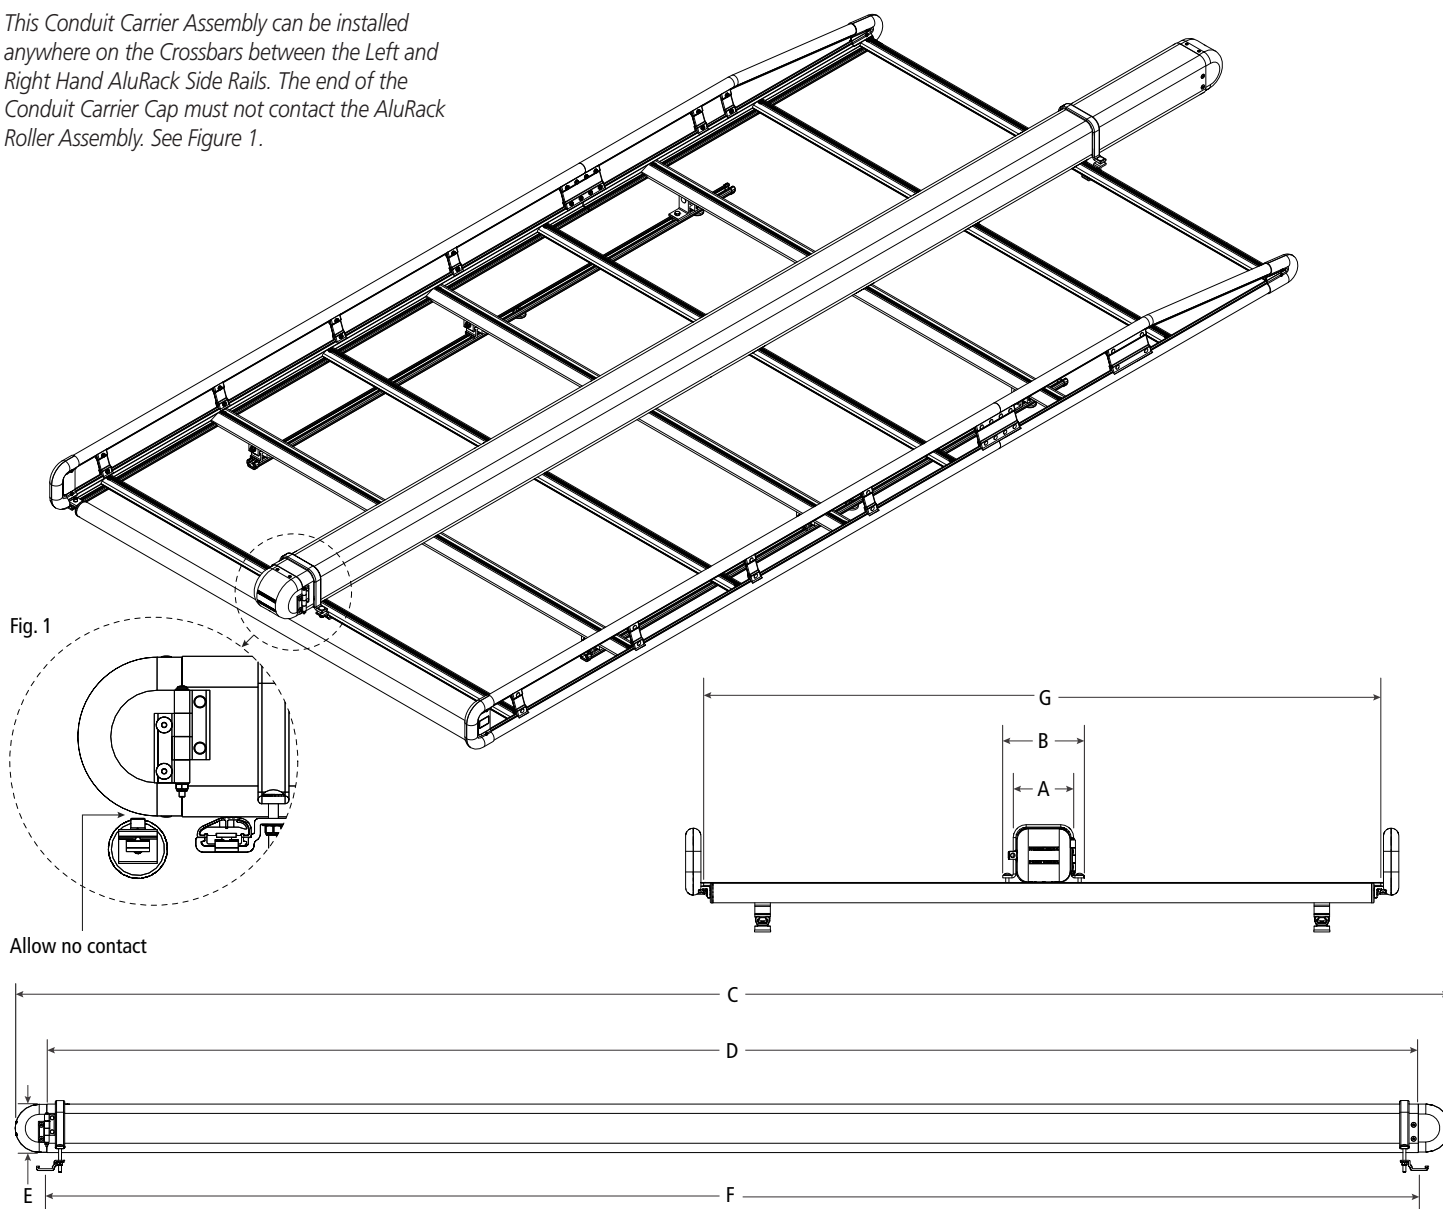

Shown mounted onto AR1908 AluRack (Ford Transit Van) for illustrative purposes only

Approximate dimensions as shown:

A: Conduit Carrier Width	5"
B: Conduit Carrier Total Width	8"
C: Conduit Carrier Total Length.....	154"
D: Conduit Carrier Usable Length.....	147"
E: Conduit Carrier Height.....	5"
F: Mounting Bracket Maximum Width	12.25'
G: Minimum Required Space.....	N/A

This Conduit Carrier Assembly can be installed anywhere on the Crossbars between the Left and Right Hand AluRack Side Rails. The end of the Conduit Carrier Cap must not contact the AluRack Roller Assembly. See Figure 1.
