

Southwire[®]

PP6/PP10

PUMP PLIERS

Easily clamp and secure evenly with heavy pressure using our tongue and groove design for non-slip grip and using a wide range of versatile jaw positions.

● **RIGID TEETH**

Right angle, laser heat-treated teeth grip better and last longer

● **POWERFUL JAWS**

V-jaw design allow for greater holding force and resists slipping

● **SMOOTH ACTION**

Smoothly adjusts between seven machined tongue and groove jaw positions

● **RESISTS SLIPPING**

Undercut tongue-and-groove design resists slipping

● **COMFORTABLE GRIP**

Curved handle and ergonomic molded grip for comfortable use
