

World's Best Drywall Lifts™
PANELLIFT®
 by Telpro Inc. USA
 Brand

One Person Drywalling brought to you by Telpro Inc. for over 40 years.

Standard Duty Grade Model 138-2

The original **PANELLIFT**® Model 138-2 by **Telpro Inc.** is the industry's leading drywall lifter. We defined the product category with this model over 40 years ago and the features it delivers are the standard that many others have tried to copy:

- One person drywalling
- 11' standard reach
- Works on walls or ceilings.
- Tilts allows one person loading and accommodates sloped ceilings
- Also tilts up longitudinally 10°
- Fast action, single stage winch with silent cam-lock brake
- Assembles in seconds with no tools

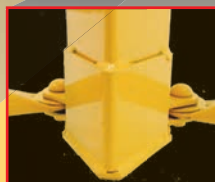

It's the details that make us the World's Best™

While everyone else seems to be rushing to build the cheapest equipment, **Telpro Inc.** continues to focus on building the World's Best Drywall Lifts™. We continue to develop & patent innovative designs that deliver value, safety and long life even in the most rugged of settings.

Patented jam resistant Tripod Base simplifies assembly/disassembly and extends tool life.

Heavy duty Frame Base and Center Leg stand up to heavy use even in rental.

Patented Cradle Body design protects telescoping outriggers from damage, extending product life; Easy action Cross Arm release eases disassembly and extends tool life.

The **PANELLIFT®** Drywall Lift is ergonomically designed to **save your back**. One person can easily transport, assemble, and operate each model of the **PANELLIFT®**, making drywalling a **one person job**. No tools are required for assembly. Dismantle the unit and put it into the trunk of your vehicle for easy transport to your next job site. The tripod base folds to allow the assembled unit to pass through doorways. The PANELLIFT® is made in the USA using all-steel construction to handle commercial work loads.
