

Seal Spray Foam

HIGH PERFORMANCE SPRAY FOAM

Contents
Under
Pressure

Highly
Flammable

Avoid Inhalation
+ Skin Contact

DANGER

Extremely flammable aerosol. Pressurized container. May burst if heated. Harmful if swallowed or inhaled. May cause skin irritation or an allergic skin reaction. Causes serious eye irritation.

FIRST AID

IF ON SKIN: Wash with plenty of soap and water.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Consult doctor as quickly as possible with SDS of product available.

Additional instructions and SDS available at www.sealsprayfoam.com

USES

For installation and sealing of doors, windows, insulation board and other construction details. Filling of gaps and cavities. Thermal and sound insulation.

TECHNICAL SPECIFICATIONS

Working temperature of the can +41°F... +77°F, air temperature in application +41°F... +86°F, best result at +68°F.

SURFACE PREPARATION

Surface should be free of dust, dirt, grease, and any oils

INSTRUCTIONS

Connect the can with the gun and shake well. For best results lightly moisten the surfaces before application. Adjust the amount of foam with the gun trigger. Store in an upright position at temperature +41°F to +77°F. This product should not be used in areas with poor ventilation unless a protective mask with an appropriate gas filter is used.

Place the provided nozzle onto the applicator barrel tip.

INTERTEK CLASSIFIED CAULKING AND SEALANTS

Surface Burning Characteristics Applied
to Inorganic Reinforced Cement Board
Flame Spread 15 Smoke Developed 150

*Tested and applied in three 3/4 in. diameter beads 5 inches on center covering 12.5% of the exposed test sample area. The material is packaged under pressure. Investigation did not include evaluation of either the pressurized containers or the material prior to dispensing.
