

FIXED LADDER ANCHOR

BRING YOUR FIXED LADDERS INTO COMPLIANCE

DESIGN FEATURES

- Telescoping Construction
- 3 ft, 4 ft and 5 ft Configuration (above top rung)
- Load Indicating Shear Pin
- Secondary Anchor Point

FIXED LADDER ANCHOR

DESIGNED FOR MAXIMUM SAFETY ON FIXED LADDERS.

The new Werner Fixed Ladder Anchor provides two points of safe, secure connections. One for fall arrest and the other is an anchor/transfer point for 100% tie-off during transition to working surface.

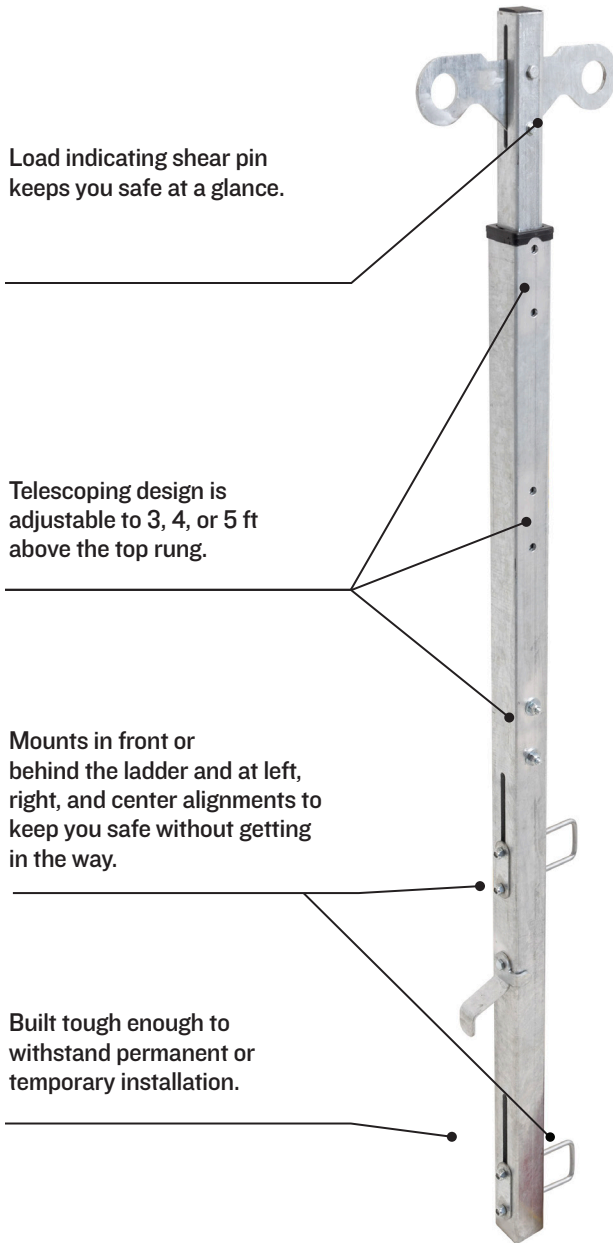

- Easily installs in minutes
- Fits ladder rungs up to 2" in diameter
- Made of strong galvanized steel
- Compatible with all Werner harnesses and does not require a front D-ring

Load indicating shear pin keeps you safe at a glance.

Telescoping design is adjustable to 3, 4, or 5 ft above the top rung.

Mounts in front or behind the ladder and at left, right, and center alignments to keep you safe without getting in the way.

Built tough enough to withstand permanent or temporary installation.
