## PARAPET ROOF ANCHOR

Portable Anchors

Part ID: 65077Z

The Parapet Roof Anchor provides a parapet wall fall protection anchor for work on lower-level surfaces. This parapet clamp works with retractable lanyards, vertical lifelines, and shock absorbing lanyards.

Designed as the “go-to” solution when roof penetration is not an option, these parapet wall roof anchors for fall protection feature a large easy-to-grip adjustment handle for quick set-up and proper securement.

## Key Features

- Designed as a single tie-off anchor for fall arrest
- Used in locations where a low parapet wall provides an anchor site
- Adjusts and fits parapet walls between 4 in. to 16 in. wide
- Compatible with a horizontal lifeline system of up to 20 ft.
- Rated for an impressive 5,000 lbs.
- Includes a safety pin for secure setup
- Material: Zinc Plated Steel
- Weight: 13 lbs

**COMPLIANCE: OSHA 1926.502 & 1910.140**
