

FOUR-WAY SKIDS

JOBMASTER® Chests

STORAGEMASTER® Chests

JOBMASTER® Cabinets

We've taken the new **FOUR-WAY SKIDS** – already included on the new Field Station 119-01 – and included them on all STORAGEMASTER® Chests, JOBMASTER® Chests and Cabinets, KNAACK® CLASSIC Storage Chests, and the Monster Box® Series.

IMPROVES MOBILITY

Improves Mobility Forklifts can now gain access from all sides, making it easier to move the boxes around the jobsite and in the warehouse.

IMPROVES PRODUCTIVITY

Improves Productivity Four-way skids make casters easier and faster to attach with a bolt/nut fastener system than the previous thread cutting bolts. Casters will include fastener kits for both two-way and four-way skids. A separate bolt/nut kit (7763) for use on the four-way skids is also available.

IMPROVES DURABILITY

Improves Durability The new four-way skids are made of 7-gauge steel, improving skid durability. And the bolt/nut combination attaches the caster even more securely to the skid.
